Hi Tocky,

The recent orange flagging has been placed to distinguish areas where the State's 1987 methodology (wetland line) differs from the local hydric soil base line.

The orange flagging has been labelled 3/11 followed by sequentially A', B', C', D' and E'.

- ✓ A'1-11 (A'1 around old pink 33 number was gone) A'11 with pink B35
- ✓ B'1-3 B'1 with pink B30 and B'3 with pink A46
- ✓ C'1-12 C'1 with pink E2 C'12 with G1 *NO CH*
- D'1-7? D'1 with G7 back to Pond berm (ends near /upslope from C'1)
- E'1-4 E' shrinks down the isolated wetland upslope of the pond to a very small area

I also extended old pink F35 was extended to F53 (with pink flagging).

I would like a worksheet with the flag numbers and the wetland boundaries. All the shots make it too busy to use. I can't see some of the info I need to see.

Thanks.

Joe

Tocky,

Garrett Scholes has purchased the Picard parcels recently. He needs to perform a boundary and topo on the parcels, which are lots 12 and 13 in Brentwood and 8 and 10.1 in Exeter.

He also owns 17 in Brentwood and 5 in Exeter. We do not need to survey those parcels.

I need a FIRM estimate to complete the work. I told it will be done w/o snow on the ground, more accurate and easier.

Joe will flag the site.

Thanks,

Eric

\$5,000-\$6,000....does NOT include survey of Town Line.....I will do my best with available data on that, but there will need to be a disclaimer on the plan.
